October Life Skill

Time Awareness:

Developing an internal time clock for being accountable

Dear Parent/Guardian:

As we move into the second month of instruction, most students have adjusted to routines and procedures set by their teachers during distance learning. As always and during these unprecedented times, our priority is providing our students with the best possible education, safety, and security as we continue to focus on our learning goals. As we continue planning for reopening, we would like to hear your preferences in order to plan appropriately for all students.

Currently, we are following guidance provided by our Alameda County Public Health Officer, California Department for Disease Control, and California Department of Education. As instructions become available, we will make adjustments accordingly.

Please take a few minutes to complete this short survey so we can better understand each family's needs. The results of this survey will help NHS to prepare for reopening.

Please complete the survey by Friday, October 9, 2020. Then, join me October 23rd for a Parent Circle on Zoom to hear updated news.
